

SR8300 6.1 CHANNEL THX SELECT® HOME THEATER RECEIVER

With the SR8300, Marantz takes receiver technology and flexibility to a stunning new level. It incorporates the latest generation of digital surround sound decoding technology and is software upgradeable, via a computer communication port. Included with the SR8300 comes a versatile 2-way programmable touchscreen learning remote control (RC3200). The total package delivers high-end movie and music reproduction to your home entertainment environment.
