

marantz®

Platinum *ecstasy*

As the jury explained: "The New PM-15S1 proves Marantz is still a serious force in audiophile two-channel music equipment. Luxury touches include a shimmering solid-aluminum fascia. Advanced technology includes an accurate electronic volume control.

And thanks to a unique four-way stacking option, with central channel steering, the PM-15S1 is ready and willing to lend its natural, powerful sound to movies as well as music. It completely justifies its membership of the high-class Premium component range."
